

Mobile Museum of Art Outreach Earth Day Mobile Bay 2009

Saturday, April 25th 11:00 a.m. until 6:00 p.m.
Fairhope Pier South Park
www.EarthDayMobileBay.Org

This year's Earth Day will host many environmental displays and activities, a Regional Earth Day Science Fair, and a wide variety of interactive educational opportunities for children and adults, as well as an exciting live music line-up all in a family-fun atmosphere. The Mobile Museum of Art is thrilled to be able to participate in this celebration.

Recently expanded in 2002, Mobile Museum of Art in beautiful Langan Park is the largest art museum along the Gulf Coast from New Orleans to Tampa. The 95,000 square foot facility is the setting for its permanent collection of over 8,000 works of art spanning two centuries of culture, as well as world renown traveling exhibitions and regional art exhibits.

The Mobile Museum of Art will be participating in the celebration by offering a variety of environmentally friendly art activities for all ages. Come join us as our museum outreach educators help you create your favorite bug using recycled egg cartons, brush up on your French painting technique by using watercolors to capture a fantastic outdoor scene, or design a family or personal emblem to put on a garden flag for yourself, or to give to someone special!
