

Geothermal Solutions services South Alabama as a heating and air conditioning contractor specializing in geothermal heat pumps. Geothermal heat pumps are the most efficient and comfortable way to heat and cool your home. These systems can save homeowners more than 50% on their heating and cooling costs, afford their families with free hot water, and provide comfort without damaging the environment. In addition, the Federal Government now allows a 30% Tax Credit on qualified geothermal installations.

Through our accreditation from the International Ground Source Heat Pump Association (IGSHPA) and our experience with Waterfurnace Comfort Systems, we are proud to offer the following quality products and services:

- ▶ Geothermal Heat Pump Service & Installation
- ▶ Closed & Open Loop Installation
- ▶ Duct Design & Installation
- ▶ IntelliZone Service & Installation
- ▶ AlpinePure Air Filtration Systems
- ▶ Radiant Floor & Pool Heating

For more information about Waterfurnace Comfort Systems and the energy savings of these systems, please **contact us at 251.443.5669 or visit www.WaterFurnace.com**.
